

B & T X LANDING NIPPLE

ASSEMBLY DESCRIPTION

The B & T X Landing Nipples are fully selective nipples used to land, lock, and seal B & T X Locks with attached flow control devices in the production tubing string. The internal profile includes a selective profile, a locking recess, and a polished bore.

The B & T X Landing Nipple can either have Pin X Pin connections, or Box X Pin connections, based upon customer requirements. Standard and premium connections are also available.

B & T has X Landing Nipples in 4140 L80 and 9 Chrome materials in stock, however other materials are available upon request.

B & T can customize its X Landing Nipple to fit to any customer specified seal bore or Plug customization.
